Dear Sir/Madam,

I am writing to apply for the Security Analyst/Engineer/Consultant.

I have strong analytical mindset and solid background in Penetration Testing, incident response, and security analytics; application security, scripting, and networking design. I graduated with a First-Class BSc (Hons) degree in Computer Forensics and an outstanding achievement award for excelling from Leeds Beckett University.

Also Offering Experience working with commercial tools, and open-source security tools; in-depth knowledge of offensive and defensive security capabilities; as well as exceptional scripting ability with Python & Bash. And bringing 4 years of profound Software Development and Network Security experience.

I am detail driven with an eye for spotting errors. My analytical skills are sharp and I am able to solve complex problems. I possess excellent time management skills and I am able to meet deadlines for multiple projects.

I would love the opportunity to be working for your prestigious company. I am quite certain you will find my expertise and talents to be what you are looking for.

Please be in touch at your convenience to schedule an interview. I look forward to meeting you and thank you in advance for your time and consideration.

Sincerely,

Anubhavsingh Sawdagur
